Number 1

## Textile Welcomes Class of 1943

### 5 New Trustees Are Appointed By Governor

A. J. Malley Elected Chairman--  
U. J. Lupien Honored.

Governor Saltonstall last July submitted to the Executive Council for approval the names of five new Textile trustees to replace the five men whose terms expired June 30. At the first meeting at which the new members were present, Mr. A. J. Malley was elected chairman of the board. Other officers elected included Mr. Francis P. Madden of Winthrop, vice-chairman, and Pres. Charles H. Eames, secretary.

One of the new trustees, Ulysses J. Lupien, Westford Rd., Chelmsford, who replaced Charles C. Schloss, was recently appointed Commissioner of Civil Service by the Governor. Mr. Lupien attended the Wayland schools and was graduated from

(Continued on page 2)

### New Members Of Tau Epsilon Sigma Are Announced

8 Are Listed; 8 from Greater Lowell.

At Commencement in June, President Eames announced the following students as members in Tau Epsilon Sigma, the scholastic honor society. Their selection was based on their standing for the first three years; namely, a general average of at least 80 each term and no failures or deficiencies--

Merlen C. Bullock, VI-C, Lowell.

Arthur S. Davis, IV, Lowell.  
Stanley Falk, VI-S, Brooklyn, N. Y.

Louise Fox, VI-D, Dracut.  
Robert B. Hull, VI-G, Lowell.  
Arthur W. Lanner, IV, Lowell.  
Edward J. F. Maslanka, IV, Lowell.

Walter S. Thayer, VI-S, Bennington, Vt.

### TEXTILE MARRIAGE

Mr. Herbert A. Wormwood, B.T.C. '36, to Miss Lucille Bradbury at the First Baptist Church of Arlington, on Saturday, Sept. 9, 1939.

### Help Wanted

**WANTED**--Students who are willing to spend a little time producing literary contributions to the **TEXT**. Openings on **TEXT** Staff are few; therefore, those interested had better see the Editor immediately. Apply **TEXT** Office, Room 310.

### LOWELL TEXTILE INSTITUTE

### President Eames Greets Members of the Class of 1943

The Lowell Textile Institute, through the Trustees, the Faculty, and the Instructing Staff, extends to you a hearty welcome. Like all educational institutions it has standards which you will help to maintain and raise, traditions which you will strengthen and broaden, and ambitions which you will not only fulfill but also expand.

There have gone before you forty-one classes, the members of which have added to the reputation of this Institute, made the great textile industry richer by their work, and found places for service and satisfaction. During the last few years, we have been happy to receive as students the sons of some of the earlier graduates. This Class of 1943 includes two young men who represent the second generation to attend this Institute. These men will find other sons of alumni in the upper classes. May they all be as loyal to L. T. I. as their fathers and attain even greater success.

You are today entering upon your college career, using the word, college, in its broader sense and not in its strict academic meaning of a liberal arts college. It is intended to apply to that period of a young man's life when after finishing his preparatory school work he enters some higher institution of learning that he may better fit himself for his life's work in a chosen field of activity. Those who are able to do this are fortunate and with this privilege should recognize a responsibility: viz. to develop one's self physically, mentally, and spiritually to the greatest extent. You are looking forward to a training that will help you to be leaders. The world today in every country and in all fields of political, social, industrial, and economic activity is looking for leaders who will have courage, vision, and trained intelligence. You will find the demand the same when you have finished your work here and enter into active business.

As students here by your efforts, application, and cooperation with your professors and teachers you will develop your mind in a broader understanding of the several subjects which you study. You will acquire a certain store of facts, but more than that we hope you will develop a reasoning power that will guide you advancement in all activities of your life. You should see to it that your body is cared for and strengthened that is may support the expanding mind. Proper exercise and food should receive your serious thought. But a well-developed body and a strong active mind directed in one's chosen field are not sufficient in shaping a well-rounded career. During the next few years, under the influence of your studies, the wider contact with your new associates, a keener interest in the many perplexing problems that are confronting society and industry, you will ask yourself if you have not already done so--What is the meaning of all this? What part does man play in the great scheme of life? These laws of science and the phenomena displayed in their operation naturally raise the inquiry in our minds--What is the motive power and controlling force back of it all? To help you in seeking some solution may I urge that you formulate for yourself some philosophy of life or accept one that has been developed and in which you may find help. Religion in its theory and practice should be a part of your training. Let me urge you to do this very slowly of the city or in your own town and do your part in its work.

This is a time in a young man's life when he is beginning to break the ties that have held him closely to a home life. May I again urge you to do this very slowly. The thoughts of your home and parents should be an important part of your daily life. Frequent letters home should be your obligation and duty.

There will be afforded to you here many opportunities to make new friends. This should be done with care and thought for new acquaintances may be a help or a hindrance in your life and work. Your success during the next few years is to a larger extent than you realize dependent upon these friends.

On behalf of the professors and the instructors I invite you to make friends with them. Go to them outside of class, for by this method you will understand them and they will be able to help you. The various student activities have been or will be explained to you. Find your place to be of service in some of these, but do not consider the demands of these before your studies.

We trust that this year and those following will be most successful and happy ones for you.

CHARLES H. EAMES,  
President

### A. A. T. C. C. To Hold Annual Convention

Dr. Chapin Announces Chemists Meeting.

The Northern New England section of the American Association of Textile Chemists and Colorists will hold its nineteenth annual meeting and convention this Friday and Saturday, September 15 and 16, at the Copley-Plaza Hotel in Boston.

Dr. Harold C. Chapin, national secretary of the Association, gave the following details of the meeting, in which the Chemistry Department of the Institute is vitally interested, and which many of the students, as well as all the chemistry professors, plan to attend.

Many technical papers will be read, dealing with chemical research in textiles. Among these are three in which the Lowell Textile Institute are especially interested in that they are being (Continued on page 2)

### Summary of 1939 Textile Graduation

53 Receive Degrees or Diplomas

Fifty-three men and women, including 26 from Greater Lowell, received diplomas, or degrees, from President Charles H. Eames, at the graduating exercises of the Class of 1939 last June 6. Degrees of master of science in textile engineering were awarded to three men, including graduates of the United States Military and Naval Academies.

Greater Lowell students outnumbered all others receiving special awards. H. Kendall Dick of Lowell won the medal given yearly since the first commencement in 1899 by the National Association of Cotton Manufacturers.

The principal address was given by Frederick M. Feiker, of Washington, D. C., executive secretary of the American Engineering (Continued on page 2)

### Louis A. Olney Book Prizes Are Awarded

Chemists Receive Reward For High Records.

Announcement was made at Commencement of the following special awards, in the form of books, presented by Dr. Louis A. Olney.

\$10 to the student graduating from the chemistry and textile coloring course, who, not having already received recognition by appointment as student instructor, shall have maintained the highest scholarship throughout the course, in the opinion of the instructing staff of the department. To Herbert C. Olsen, Reading.

\$10 and \$5 respectively to the students taking the regular chemistry and textile coloring course who shall be considered as having obtained the highest and the second highest scholarship in second and first year chemistry.

Second year: First Prize, Irving P. Mintz, Passaic, N. J. Second Prize: John H. Condon, Jr., North Benaria, Condonville, N.Y. Honorable Mention: Clarence B. Well, New York City; William B. Givan, Lowell; Sidney I. Salsman, Lowell.

First year: First Prize, Walter J. Eisen, Lowell. Second Prize, Irving Paul Wolf, Brooklyn, N.Y. Honorable Mention: Stanley Szeps, Lowell; Paul F. Noonan, Lowell; Philip D. Caine, Lowell.

To the Freshmen

To the Class of 1943, the Freshmen, a hearty welcome! Three or more years of college life are before you. These years are yours to make profitable as you see fit, to prepare yourselves for the world to which college is but a stepping stone. Make the most of every day; they will go fast, and—once past—can never be repeated.

For most of you, coming to college directly from high school, Textile will probably seem at first to be comparatively impersonal in its teachings and lax in its discipline, yet rather different seen from a high school student's eyes. As the days pass, you will realize that Textile is here for the students, and for what they—you—want to get out of it. And then too, when the first marking period comes rolling around, you comprehend that one receives from college no more than he puts in.

Therefore, by all means buckle down to work, attend lectures dutifully and thoughtfully, do assignments on time and with care, and put in some serious and conscientious study.

The Faculty are all your friends; the activities are conducted for your pleasure and participation; the fraternities are here for your benefit; and the upperclassmen are only too glad to be friendly and helpful—notwithstanding the playful antics of the Sophomores for the first few days.

Go to it, Freshmen, college life awaits you!

The First TEXT

This, the first issue of the TEXT for the college year, is being presented to you with the compliments of the TEXT staff. A new editorial policy is being carried out this year—a policy of up-to-date news, with more items of all school interest, together with notices of activities, fraternities, sports, with pictures and cartoons. The subscription rate is only one dollar for sixteen issues of the TEXT AND 34 numbers of the COLLEGIATE DIGEST, an eight-page rotogravure supplement.

The TEXT is the official news-organ of the Textile student body and deserves your support, not only by your subscriptions, but also by your literary contributions.

LOWELL TEXTILE INSTITUTE

Four-Year Degree Courses In

CHEMISTRY AND TEXTILE COLORING -- TEXTILE ENGINEERING Degrees of B. T. C. (Bachelor of Textile Chemistry) and B. T. E. (Bachelor of Textile Engineering) offered for completion of prescribed four-year courses.

Three-Year Diploma Courses In

COTTON MANUFACTURING, WOOL MANUFACTURING, TEXTILE DESIGNING

Scientific and practical training in all processes of textile manufacture including all commercial fibers.

Certified graduates of High Schools and Academies admitted without examination.

For catalogue address Charles H. Dimes, S. B., President, Lowell, Mass.

A.A.T.C.C. To Hold Annual Convention

(Continued from page 1) presented by Textile men.

Prof. John H. Skinkle will present "Identification of the Newer Textile Fibers" which will describe the tests which are required to identify the newer fibres—such as glass fibres, condensed amines and acids (Nylon), vinyl resin fibres, cation wool, and mixtures of viscose and cation—and the microscopical appearances of the new fibres in contrast to the chemical reactions and microscopical appearances of the older fibres.

Herbert C. Olsen and William B. Prescott, both of the Class of '39, with Dr. H. C. Chapin, will read their thesis on the Sodium Sulfate Error in Measuring the Acid Content of Carbonizing Baths.

"The Development of Methods for the Determination of the Causes of Damage Appearing in Wool after Dyeing" will be presented by Mr. Bertil A. Ryberg, Research Associate of the A. A. T. C. C. supported by the Textile Foundation at the Institute.

WHITEMAN AND WARING ON CHESTERFIELD'S FALL RADIO PROGRAMS

Paul Whiteman every Wednesday and Fred Waring five nights a week, broadcasting from their own playhouses in the center of New York's theatre district, are the Chesterfield radio offerings for the coming Fall and Winter season. In fact, the huge Fred Waring organization entertains its theatre audience for a half hour after every air show, and the Liggitt & Myers Tobacco Company's New York office is busy filling thousands of ticket requests daily from metropolitan fans as well as visitors from all over the country, who are anxious to see these two great entertainers in person.

The new Fred Waring "Pleasure Time" program is broadcast from Monday through Friday evenings in five quarter-hour programs, over a national NBC network. The popular Whiteman half-hour program is a regular Wednesday feature for millions of listeners from coast to coast. Stars of the Fred Waring program are Douna Dae, 18-year-old ballad singer, Patsy Garrett and Jane Wilson, tenors Stuart Churchill and Gordon Goodman, baritone Jimmy Atkins, Poley McClintock, comedy drummer, and the "Two Bees and a Honey" trio. The program opens up each night with the new theme song "While a Chesterfield Was Burning."

The Paul Whiteman program, setting a brilliant pace for variety and musical mastery, goes into another season as one of radio's outstanding entertainments. Featured voices include lovely, talented Joan Edwards, the Four Modernaires and Clark Dennis, tenor. And probably never before have so many outstanding musicians appeared on one popular program. Besides Whiteman himself, there are Roy Bargy, pianist and assistant director, who arranges many of the band's numbers, Charlie Teagarden, one of the finest "hot" trumpeters of all time—Al Gallodoro, America's top saxophonist, who leads such artists as Sal Franzella, Frank Simone and Art Delsing in the "Sax Society" unit—"The Bouncing Brass," with Goldie Goldfield, Teagarden, Bob Cusamano and Hall Mathews—and many other names famous to lovers of jazz and swing.

SUMMARY OF 1939 TEXTILE GRADUATION

(Continued from page 1) Council Mr. Feiker discussed "The Textile Engineer's Place Tomorrow," emphasizing the value of specialization in education.

President Eames conferred degrees and presented diplomas. The following degrees were conferred:

Department of chemistry and textile coloring, bachelor of textile chemistry: Herman Timothy Suckley, \*Helen Jane Jarek, \*Samuel Levin, Sidney Robert Marsden, Arnold Irving Miller, Harold Joseph Monahan, Hubert James Murphy, \*Herbert Charles Olsen, \*James Peter Patsourakos, \*William Benjamin Prescott, Warren Thomas Reddish, Jr., Clyde Burton Rowntree, \*Edward Spivaek, \*Burton Cole Winkler. Department of textile engineering, master of science in textile engineering: Ion Maywood Bethel, B.S., Texas Agricultural and Mechanical College, 1935; Frank M. Steadman, B.S., United States Military Academy, 1929; Walter Ferdinand Pritch, B.S., United States Naval Academy, 1930.

Bachelor of textile engineering: Phyllis Jeanne Baker, John Garrett Banta, \*Albert Joseph Beauregard, \*Arthur E. Stuart Bone, Jackson Agmor Brantman, \*Joseph Derzawetz, \*Henry Kendall Dick, George Demitrios Gianaris, John Lester George, Estanislao Manaois Ocoma, (E. S. Univ. of West Virginia), \*Eileen Margaret O'Donoghue, Everett Carlton Reed, \*William Thornton Reed, Sidney Steinberg.

The following diplomas were awarded:

Diploma in cotton manufacture: Frank Norbert Baner, Victor John Esichlons, Eldon Stowell (A.B., Williams).

Diploma in wool manufacture: Leonard Lee Cohen, Frederic Lawrence Ekstrand, Clarence Russel Gay, Ralph Harding Little, Charles Adelbert Merritt, Silas Mandeville Wheelock, Jr., Arthur Charles Wiesner.

Diploma in textile design: Raymond Silberstein. (\*Member of Tau Epsilon Sigma, Scholastic Honor Society.)

5 New Trustees Are Appointed By Governor

(Continued from page 1) Harvard in 1906. He has served on the Chelmsford school board and on the instructing staff of the Institute.

Other new members of the board of trustees are:

Roland E. Derby, Varium Avenue, Tyngsboro, replacing John E. Regan. Graduate of the Lowell Textile Institute, and chief chemist for M. T. Stevens and Sons, North Andover.

Stephen Gleason, 495 Stevens Street, Lowell, replacing Walter F. Conner. Graduate of Bradford Duffee Textile school and Rhode Island School of Design. Manufacturer, with Walter L. Parker, Bobbin and Spool Co., Trustee of Merrimack River Savings bank.

Richard G. Chadwick, 64 Hayes Street, Lowell, replacing James H. Riley. Educated in Lowell schools. Took special evening courses at Lowell Institute of M. I. T. and Northwestern Polytech. Engineer with New England Telephone & Telegraph Co. Captain commanding headquarters and combat train, 102nd Field Artillery, M. V. G.

Harold V. Farnsworth, 4 Central Green, Winchester, replacing John C. Carr. Graduate of Winchester High School and Lowell Textile Institute. Engaged in textile business with Amoskeag Mills in Manchester, N. H., Stark Mills, Lockwood Green, Corp., and Atkinson Haserick Co. Served in Navy during war, four years as member of Winchester selectmen and one year as chairman of the board. Member of Mason, American Legion.

**SPORTS**  
Prof. Lester H. Cushing, Athletic Director  
**FOOTBALL, BASKETBALL, BASEBALL**  
These are all varsity sports, under the supervision of the Department of Athletics, Prof. Lester H. Cushing, Director, and Waldo W. Yarnall, Coach, with Lt. Larry Smith and Mr. Charles Scully acting as assistant coaches for football. Admission to all home games for the students is covered by the athletics fee paid with the tuition. Co-Captains of the football team this year are Rudy Meuser and Joe Felt.

**RIFLE CLUB**  
President: Safford Sweat, '40; Faculty Adviser: Mr. William G. Chace, Coach; Prof. John H. Skinkle. Textile has a regulation size and equipped rifle range, and last year gave a very good showing in matches with other clubs and schools.

**GOLF CLUB**  
Captain: Robert Fead, '11. Last season, the newly organized L. T. I. golf team won three matches out of four, and this year hopes for a better showing with more contests.

**INTER-FRATERNITY SPORTS**  
Among the fraternities each year there are contests in basketball, bowling, and softball, and these games are fought just as hard as the varsity matches, with good interest and high sportsmanship.

**Honor Societies**  
**PRESIDENT'S LIST**  
The President's List is composed of upperclassmen whose term average is at least 80 and who have no failures or deficiencies.

**TAU EPSILON SIGMA**  
Textile's own honor fraternity, Tau Epsilon Sigma, has for members those seniors who have been on the President's List in their Sophomore and Junior years, and whose marks as Freshmen have been of the same high caliber. Those on Tau Epsilon Sigma are excused from the Faculty ruling for overcuts.

**Sorority**  
PHLAME  
Founded in 1937 at Textile. Local Membership 9. Miss Louise Fox, President.

**CAMERA CLUB**  
President: Joseph Derzawetz, '40. Faculty advisers, Prof. A. Edwin Wells and Mr. William G. Chace. The Camera Club started last year with great enthusiasm being shown, and plans for this year show an added interest with special features being arranged.

**GLEE CLUB**  
Faculty advisers: Prof. James G. Dow, Mr. Russell M. Fox. The Glee Club was disbanded last year for the first time in many seasons, but plans are already in progress for reorganization very soon.

**A. A. T. C. C.**  
The American Association of Textile Chemists and Colorists is a national fraternity of chemists, and Textile's chapter has Prof. Harold C. Chapin, Ph.D., who is National Secretary, as Faculty Adviser, and Vernon W. Colby as Chairman.  
**ENGINEERING SOCIETY**  
The Lowell Textile Engineering Society is the engineering department's organization, with all Course VI students eligible for membership. Trips are arranged and talks on engineering subjects are sponsored by the Society, under the Advisory capacity of Mr. Milton Hindle.

**TEXTILE PLAYERS**  
At their annual all-school show and dance in April, the Textile Players always present a fast-moving and entertaining drama, under the direction of Prof. Elmer Fickett and Prof. Russell Brown. This year's president is H. Russell Cunningham, '40.

**TEXT PRIZES**  
The TEXT announces that valuable pen and pencil sets, obtained through the courtesy of Scott's Jewelry Company, will be awarded the two holders of the lucky numbers on their TEXT subscription cards. If you want to be eligible to compete in this prize drawing, see any TEXT staff member and subscribe. Contest closes soon. Sign up NOW.

**FRESHMAN LAB REPORT**  
The following may give the general public an idea of what a poor creature has to contend with when he tries to correct the English of the Freshman Physics lab reports:  
—The weights were respectively weighed.  
—Metals are usable for all sea-going vehicles and water appliances. Since metals are tighter when submerged in water, they are easily floatable and can and are used in the construction of ships and buelluons.

—Of course, it was rather difficult since my partner and I are left-handed, and we were working with a right-handed hoisting crane.  
—The outcome of the experiment was about right except if better balances were used were very accurate. I learned that the volume of a body is equal to the volume of water displaced by Archimedes' Principle. Archimedes' Principle is applied in all physics laboratory.

—The clockwise moments are equal to the counter-clockwise moments when they are in the same direction.

## Former Navy Grid Star To Assist Yarnall

Three Coaches Now Instead of Only One.

Lady Providence has played an inflationist's hand in a coaching direction at Textile this year. She has popped up with two first hand assistants who will give the Red and Black forces a staff equal to some of the best smaller colleges in New England. Charles "Chigger" Scully, former Lowell high quarterback, who later played at Villanova under Harry Stuhldreher, before the quarterback of the Four Horsemen went to the University of Wisconsin, will be on hand to handle the backfield candidates. "Chigger" is an instructor at the Institute.

Taking over the line-coaching duties will be Lieutenant Larry Smith of the United States Navy. Smith is on shore duty after six years afloat. His duty at Textile is to study fabrics and materials that the navy can make use of in the line of duty and equipment. Looking back through the annals of the football was we find that this Lieut. Larry Smith was the regular left end on the U. S. Naval academy team at Annapolis from 1929 to 1931. In those three years with the academy varsity, he was a regular wingman for his junior and senior year.

Lieut. Smith's home is in Cantonville, Maryland. He said the other day that he thinks "Rusty" has a pretty good chance of turning out a fair ball club this season. During the course of the conversation he said that he thought the colleges in New England played football a little differently than at the academy. While a regular with Navy, Smith played under "Rip" Miller, who was head coach at the time and a Notre Dame graduate. He also played under Bill Ingram, who later went to coach at California.

Hence Smith has had a taste of Miller's Notre Dame style of play, with its shifting ends working on the tackle alone, and also some of Ingram's Warner methods, which usually give ends help with tackles by adding a back in the process of opening up a hole. The lieutenant said that most teams around here take a fancy to an unbalanced line of attack, while he thought those teams in the vicinity of Annapolis went in for a regular balanced line.

He has been here since last August and plans to give "Rusty" a lift when the Giant Killers start out for their initial drill of the season today. Although he has been closely connected with the navy and its operations at sea since he graduated in 1932, he wouldn't give out any statements

Courtesy LOWELL SUN.  
Coach "Rusty" Yarnall, at the blackboard, working out a new formation with Lt. Larry Smith (seated) and "Chigger" Scully (right).

about the present war abroad. When asked, he just smiled and said, "I wouldn't care to talk about the situation."

A meeting last week called by Head Coach Yarnall, was for the purpose of determining an attack for the coming year. Yarnall said, "This is the first time I've ever had the opportunity of two assistants, and I intend to take advantage of their services." "Rusty" plans several radical changes in his style of attack. Only the games will tell what is in store on the Moody street gridiron this fall. Maybe "Rust" will come out with a new version of his wingy spread formation that baffled the opposition a few years back."

## FOOTBALL TEAM LOSES JOE PELT

Seigler Also Unable to Play

As we go to press, word has been received that Joe Pelt, one of the Co-Captains of the Textile football team, received injuries this summer which prevent him from playing this fall. His loss will be deeply felt by the coaches and his teammates.

Frank Seigler, who was noted during spring practice as being one of Textile's outstanding hopefuls, also is out of the line-up.

"What did you learn in Sunday School today, dear?"  
"The Lord is my chauffeur, I shall not walk."

## 1939 Football Schedule

The Lowell Textile football team will play eight games this fall. Four will be played on the home gridiron, while the other four will take place on alien gridirons. There will be three familiar elevens missing from the set-up and St. Anselm's, Colby and Connecticut State will be the new additions.

The important team missing on the Milliken slate is the New Hampshire University Wildcats from Durham. Textile handed the upstate university a cuffing in the initial game last year.

Hyannis Teachers will open the season here on September 30 and the remaining local skirmishes slated are Arnold, Oct. 12; City College of N. Y., Oct. 28, and Norwich, Nov. 18. The entire schedule follows:

- Sept. 30—Hyannis Teachers at Lowell.
- Oct. 7—Colby at Waterville, Maine.
- Oct. 12—Arnold at Lowell.
- Oct. 21—St. Anselm's at Manchester, N. H.
- Oct. 28—C. C. N. Y. at Lowell.
- Nov. 4—Connecticut State at Storrs, Conn.
- Nov. 11—Am. International at Springfield.
- Nov. 18—Norwich at Lowell.

### National Champions In Rifle Drill . . .

The Newton Legion Guards are a sure-fire hit because of their right combination of precision, snap and smart appearance . . . and every Chesterfield you smoke is a sure-fire hit for More Smoking Pleasure.

THE RIGHT COMBINATION OF THE WORLD'S BEST TOBACCO'S GIVES

# Chesterfields

REFRESHING MILDNESS..BETTER TASTE..MORE PLEASING AROMA

All the things that go towards the making of smoking pleasure at its best.

This is because Chesterfield blends the very finest of American and aromatic Turkish tobaccos in a combination that brings out the best qualities of each. When you try them we believe you will say . . .

*They Satisfy*
